Tower Specs: 67" (H) x 21" (W) x 19" (D) | 194 lbs
Compartments: 3" (H) x 17" (W) x 14" (D)
Network Kit: 6" (H) x 21" (W) x 19" (D) | 30 lbs
Network switch not included with network kit.

LocknCharge makes life easier.

Compatible & Efficient Charging.

All 15 compartments are equipped with a power outlet and a 2.4 amp USB port, so you can charge almost any device, including: iPads, tablets, laptops, mobile phones, Chromebooks and more!

Physical and Digital Security.

In addition to physical security, the FUYL Tower 15 is built on highly secure AWS architecture that is both reliable and scalable.

Connected.

Our innovative management software allows you to be in control from anywhere. Once FUYL Towers are connected to the local network via Ethernet or Wi-Fi, designated admins can view, access and manage them remotely.

RFID Ready.

The FUYL Tower supports almost every RFID standard on the market including HID and MiFare: (MIFARE® Classic, MIFARE DESFire® 0.6, MIFARE DESFire EV1, HID: iCLASS® Standard/SE/SR/Seos; PIV II, Secure Identity Object® (SIO®).

Network Kit

Network Connected.

An optional network kit vastly expands the data transfer capabilities of the FUYL Tower through individual Ethernet connections. With the network kit installed, each compartment has the ability to sync information to and pull data from each device connected inside the Tower.

Additional Key Benefits

Two Access Modes. Two Access Modes so that organizations can set the FUYL Tower 15 to operate with what works best for their work flow. User Specified PIN (USP) Mode means that lockers are open so that the User can reserve a locker. It operates just like a hotel safe. Admin Specified PIN (ASP) Mode puts locker access control in the hands of the Administrator.

Open API. Organizations can build connectors for controlling doors and the display in a way that is customized for their workflow.

Visibility into Each Bay. Each compartment door has a hardened plastic window for viewing the contents inside. Window-blocking plates are also included for organizations that prefer locker privacy.

Future-Proofed. Software and firmware upgrades are available via the Management Portal.

Active Directory Integration. For added security and convenience, Administrators can login to the Management Portal using their username and password stored and managed by their corporate directory, such as an on-premises Active Directory

4.3" Graphical Color Display. In addition to online access to the Tower, administrative functions are also available from the LCD Control Module and Keypad. Administrators can unlock, inspect, quarantine, perform diagnostics and reset systems directly from the Tower.

Sleek Design. The FUYL Tower's sleek, minimalist design adapts to any environment.

Tough as Nails. Designed with passive ventilation to minimize heat build-up during charging, the FUYL Tower stays cool under pressure, and it's backed by our lifetime warranty.
